 ACHYUTHA REDDY |  Achyutha-reddy |

Hyderabad, Telengana - 501203, India

OBJECTIVE

I am seeking a stimulating professional opportunity in the realm of Computer Science that offers me an ideal platform to showcase my theoretical and practical knowledge. I aim to enhance my experimental and research skills while delving into areas aligned with my technical passions, pushing the boundaries of my abilities and reaching new heights in my chosen field.

EDUCATION

- **VIDYA JYOTHI INSTITUTE OF TECHNOLOGY** 2021 - 2026
BTech
Hyderabad, India
 - GPA: 7.59/10.00
- **SRI CHAITANYA JUNIOR COLLEGE** 2019-2021
Intermediate
Hyderabad, India
 - Grade: 85.6%
- **REVATHI HIGH SCHOOL** 2018-2019
SSC
Hyderabad, India
 - GPA: 9.5/10

PROJECTS

- **HOPE VJIT WEBSITE** 2025
Tools: HTML, CSS, JAVASCRIPT, REACT 
 - Developed a digital platform for HOPE VJIT, a community service club at VJIT, aimed at organizing and managing social outreach programs.
 - Streamlined volunteer registration, event coordination, and feedback collection through a centralized web application.
 - Helped enhance club engagement and operational efficiency in executing student-led service initiatives.
- **TELECOM INVENTORY MANAGEMENT SYSTEM** 2024
Tools: HTML, CSS, JAVASCRIPT, REACT 
 - Designed and implemented a comprehensive system to manage telecom services, including customer onboarding, plan management, billing, and support ticketing.
 - Enabled efficient handling of customer data, automated monthly billing cycles, and integrated complaint resolution workflow.
 - Improved operational efficiency by centralizing telecom operations into a secure, user-friendly interface.
- **MY PORTFOLIO** 2024
Tools: HTML, CSS, JAVASCRIPT, REACT 
 - Built a professional personal portfolio to enhance online presence and present a consolidated view of technical expertise and projects.
 - Deployed with responsive design principles, ensuring compatibility across desktop and mobile devices.
 - Developed a dynamic personal website to highlight academic, technical, and extracurricular achievements.
- **IPL T20** 2024
Tools: HTML, CSS, JAVASCRIPT, REACT 
 - Developed a feature-rich IPL T20 website that displays team rosters, match fixtures, player statistics, and points table.
 - Implemented interactive visual components for match results, leaderboards, and performance graphs, offering a data-driven fan experience.
 - Created an IPL T20 cricket website as a learning project to practice frontend development, data handling, and responsive design.
 - Covered essential cricket features such as match highlights, player bios, and points table, simulating a real-world sports portal.
- **COLLEGE MANAGEMENT SYSTEM** 2025
Tools: HTML, CSS, JAVASCRIPT, DJANGO, PYTHON, JQUERY 
 - Developed a comprehensive web-based College Management System to streamline administrative tasks such as student registration, faculty management, and academic records.

- Implemented features like user authentication, role-based dashboards (Admin/Student/Faculty), attendance tracking, and internal messaging.
- Enhanced operational efficiency and data transparency within academic workflows.
- **TWO WAY MESSAGING BOT** 2025
Tools: PYTHON,DJANGO,HTML,CSS,JAVASCRIPT [🔗]
 - Designed and developed an intelligent two-way messaging bot using Natural Language Processing (NLP) to enable real-time, context-aware communication between users and system agents. backend in Python with NLP libraries (NLTK, PyTorch) and trained a custom intent classification model to understand and respond to diverse user queries.em Integrated backend in Python with NLP libraries (NLTK, PyTorch) and trained a custom intent classification model to understand and respond to diverse user queries.
 - Implemented session tracking, conversation history, and fallback handling to ensure reliable and user-friendly communication flow.

SKILLS

- **Programming Languages:** Python, JavaScript
- **Frontend Development:** HTML, CSS, JavaScript, BootStrap, ReactJS
- **Database Systems:** MySQL
- **FrameWorks:** Django
- **Technologies:** Git Github, Docker
