Hyderabad, Telengana - 501203, India

OBJECTIVE

Seeking an opportunity in Computer Science to apply academic knowledge in a practical setting and gain hands-on experience in software development and research.

EDUCATION

- **VIDYA JYOTHI INSTITUTE OF TECHNOLOGY** 2021 - 2026
BTech Hyderabad, India
 - GPA: 7.59/10.00
- **SRI CHAITANYA JUNIOR COLLEGE** 2019-2021
Intermediate Hyderabad, India
 - Grade: 85.6%
- **REVATHI HIGH SCHOOL** 2018-2019
SSC Hyderabad, India
 - GPA: 9.5/10

PROJECTS

- **INTRACRANIAL BLOOD LEAK DETECTION SYSTEM** 2026
Tools: Python, Deep Learning, CNN, OpenCV, TensorFlow 
 - Developed an AI-based brain CT scan analysis system for intracranial blood leak detection using CNNs.
 - Applied image preprocessing and model optimization techniques to improve detection accuracy.
 - Built a deep learning model to assist early diagnosis and clinical decision-making.
- **TWO WAY MESSAGING BOT** 2025
Tools: PYTHON, DJANGO, HTML, CSS, JAVASCRIPT 
 - Developed an intelligent two-way messaging bot using NLP for real-time user interaction.
 - Built a Python backend using NLP libraries (NLTK, PyTorch) with a custom intent classification model.
 - Implemented session tracking, conversation history, and fallback handling for reliable communication.
- **HOPE VJIT WEBSITE** 2025
Tools: HTML, CSS, JAVASCRIPT, REACT 
 - Developed a web platform for HOPE VJIT to manage community service activities and outreach programs.
 - Implemented volunteer registration, event coordination, and feedback management features.
 - Improved club engagement and efficiency through a centralized digital solution.
- **COLLEGE MANAGEMENT SYSTEM** 2025
Tools: HTML, CSS, JAVASCRIPT, DJANGO, PYTHON, JQUERY 
 - Developed a web-based College Management System to automate student, faculty, and academic record management.
 - Implemented authentication, role-based dashboards, attendance tracking, and internal messaging features.
 - Improved workflow efficiency and data management through a centralized platform.

SKILLS

- **Programming Languages:** Python, JavaScript
- **Frontend Development:** JavaScript, ReactJS
- **Database Systems:** MySQL
- **FrameWorks:** Django
- **Other Technologies:** Data Structures, Algorithms

DECLARATION

I hereby declare that the above stated information is accurate to the best of my knowledge.
